### REASONS FOR ALLOWANCE

1. Claims 1-10 and 12 are allowed. The following is a statement of the examiner's reasons for allowance. Regarding claim 1, the prior art fails to disclose a pole-like spacer having an elongated sectional shape including a rounded head end portion and rear end portion in a direction of elongation, and at roots thereof, a slope portion with a surface connecting to the surface of the substrate. Regarding claim 10, the prior art fails to disclose a pole-like spacer having an elliptic-shaped cross-section including a rounded head end portion and rear end portion in a direction of a major axis of the elliptic-shaped cross-section, and at roots thereof, a slope portion with a surface connecting to the surface of the substrate. Regarding claim 12, the prior art fails to disclose a light-shielding film formed between the counter substrate and the counter electrode, the light-shielding film including pole-like spacers arranged along gaps among the pixel electrodes. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
